- Upon the request of and authorization of the charterer, the carrier shall act as agent for the charterer and arrange for the facilities and services set out in subsection (1) and the charterer shall be charged the costs incurred by the carrier in providing them.

27 – MINIMUM CHARGE

Except as provided in paragraph 27 (Application of Zone Rates and Charges) (1) (c), the minimum charge for flying on term charters is the amount computed by multiplying the number of days or months each aircraft is on the term charter by the applicable minimum charge per aircraft per day or per month.

The minimum charge per aircraft per month is applicable when it is less than the charge resulting for the application of the minimum charge per aircraft per day.

For days beyond a period of a whole month, one-thirtieth of the applicable minimum charge per aircraft per month is applicable to each such day.

In term charters of less than one month when the aircraft is available for less than an average of five hours per day, the minimum charge per aircraft per day is an amount bearing the same proportion to the applicable minimum charge per day in Table II as the average number of hours of availability per day bears to an average of five hours per day.

In term charters of one month or more, when the aircraft is available to the charterer for less than an average of twenty-five days per month, the minimum charge per aircraft for the period of the charter is reduced by one-thirtieth for each day the aircraft is unavailable less than the average of twenty-five days.

28 – CHARGES FOR LOADING AND UNLOADING AIRCRAFT

The carrier is responsible for loading and unloading aircraft at its bases except that when the charter requests or the nature of the shipment requires, special equipment or personnel, the cost of such special equipment and personnel shall be charged to the charterer.

At places other than the carrier's bases, except when caused by unserviceability of the aircraft or other cause attributable to the carrier, the cost of loading and unloading of aircraft shall be charged to the charterer.

29 – CREW EXPENSES

When the nature of the charter requires the carrier's personnel to live away from the carrier's bases, the charterer shall provide, or be charged for, their accommodation and meals, and ground transportation between aircraft and living quarters at the operating site.

30 – CHARGES FOR EXTRA AIR CREW

Upon request of the charterer, the carrier shall furnish extra aircrew and the following charges shall be made therefor:

TYPE OR AIR CREW MEMBER	CHARGE PER DAY*

31 – ADDITIONAL CHARGES FOR FUEL AND OIL

- When fuel and oil are cached in connection with the performance of a charter, the charterer shall be charged the cost of establishing the cache and returning empty containers.
- When the aircraft of the carrier is used for establishing a cache referred to in subsection (1), the hours flown shall be charged for as part of the charter.
- Fuel and oil consumed in the performance of a charter (other than a domestic ABC, ITC, or CPC charter) shall be charged to the charterer in the amount by which the cost per gallon to the carrier exceeds the following prices:

PRICE PER GALLON

32 – CHARGES FOR SPECIAL SERVICES, EQUIPMENT AND PERSONNEL

- Special services, equipment and personnel beyond those provided by the carrier in the normal performance of Class 4 charter service may, with the prior concurrence of the charterer, be provided by the carrier and the cost thereof shall be charged to the charterer.
- When aircraft are required by the charterer to be modified, other than to change the undercarriage or to alter seating or cargo configuration, the charterer shall be charged:
 - 1) The cost of such modifications;
 - 2) Detention charges or minimum charges, which ever are applicable, while the modifications are being made and while the aircraft is being restored to its original form.

33 – CHARGES FOR DETENTION ON NON-TERM CHARTERS

The detention charges set out in Table II shall be charged only when the aircraft is detained at the request of the charterer beyond the free time provided in the said Table.

When daily detention charges are applicable, any charges for flying on that day shall be deducted therefrom.

34 – INCIDENTAL TRAFFIC

In this section, "incidental traffic" means passengers, baggage and goods other than those of a charterer for which no arrangement has been made prior to the commencement of a charter flight.

- Every carrier shall accept incidental traffic for carriage on an aircraft where:
 - a) The charterer's use of the aircraft will not be adversely affected; the deviation from the mileage flown pursuant to the charter does not exceed 15 percent;
 - b) When the charterer's passengers are aboard the aircraft, the agreement of the charterer is obtained.
- Charges for the carriage of incidental traffic shall be:

Between Points Served by Regular Air Inuit Scheduled Flights:

- 1) The applicable passenger tariff from origin to destination
- 2) The applicable cargo rate per kilo from origin to destination.

For explanation of abbreviations, reference marks, and symbols; see Page 4

Between Points Not Served by Regular Air Inuit Scheduled Flights:

- 1) The greater of:
 - a. The minimum charge per passenger or per consignment for incidental traffic published in Table II;
 - b. The charges computed by multiplying the actual number of miles the traffic is carried by the rate per passenger per mile or per kilo per mile (whichever is applicable) as published in Table II.
 - 2) The charges for any services other performed incidental to transportation for which provision is made in this tariff.
- Where any incidental traffic is carried, the charterer shall be entitled to a refund in an amount equivalent to 25 percent of the revenue from such incidental traffic computed in accordance with paragraph above.

35 – USE OF AIRCRAFT BY PERSONS OTHER THAN A TERM CHARTER

When a term charterer, during the term of the charter, permits the carrier to charter the aircraft to other persons, the minimum charges applicable to the term charter shall be reduced by 50 percent of the revenue earned from the charter to such other persons.

36 – DISPOSITION OF FRACTIONS WHEN COMPUTING CHARGES

- When computing charges:
 - Fractions of less than one-half mile shall be dropped;
 - Fractions of one-half mile or more shall be increased to the next whole mile; and
 - Fractions of an hour shall be increased to the next multiple of five minutes.
- When computing a charge other than a total charter charge:
 - Fractions of less than one-half cent shall be dropped;
 - Fractions of one-half cent or more shall be increased to the next whole cent.

For explanation of abbreviations, reference marks, and symbols; see Page 4

37 – APPLICATION OF RATES AND CHARGES

On non-term charters rates per mile shall apply for all point-to-point flights where flight distances are measurable.

Rates per hour shall apply when the carrier is providing air service for a charterer engaged in operations involving flights or parts thereof where flight distances are not measurable, or when requested by charterer and such request is noted by the carrier on the invoice.

On term charters, rates per hour shall apply except that rates per mile will apply when requested by the charterer to the extent that flight distances are measurable.

38 – METHODS OF MEASURING DISTANCE

When a flight is required to be flown over airways routes or routes prescribed by the Department of Transport, the distances shall be measured in straight lines along such routes.

The distances of flights, shall be measured in a straight line between the places of commencement and termination of the work provided for in the charter, using the carrier approved system.

39 – DETERMINATION OF FLIGHT TIME

When an entire flight is to be assessed at rates per hour, the hours and minutes for which a charge is made shall be computed from the time the aircraft commences taxiing before take-off until it finishes taxiing after landing.

When only a portion of a flight is to be assessed at rates per hour, the hours and minutes flown shall be computed from the time the aircraft deviates from a point on the measurable route until it returns to a point on the measurable route.

40 – DETERMINATION OF TOTAL CHARTER MILES OR HOURS

- The total charter miles or hours, whichever is applicable, shall be the aggregate of the following miles or hours computed in accordance with section 39 (Methods of Measuring Distance) or 40 (Determination of Flight Time), that is to say,
 - The lesser of the miles or hours, if any,
 - a) Measured from the carrier's nearest base named in Table I at which the chartered aircraft is shown as available to the place at which the work provided for in the charter is to be performed;
 - b) Measured from the place at which the chartered aircraft is actually located at the time of the charter to the place from which the work provided for in the charter is to be performed;
 - The miles or hours flown in performing the work of the charter

For explanation of abbreviations, reference marks, and symbols; see Page 4

- The lesser of the miles or hours, if any,
 - a) Measured from the place at which the work provided for in the charter terminated to the carrier's base named in Table I nearest to the place at which the work provided for in the charter commenced, and
 - b) Measured from the place at which the work provided for in the charter terminated to whichever of the following places the aircraft is actually flown, that is to say
 - 1) Another base of the carrier
 - 2) The place at which another charter is to commence, or
 - 3) The place at which the carrier requires the aircraft for operational reasons.
- Where the chartered aircraft is on a term charter subject to rates per jour and the hours flown for positioning and de-positioning the aircraft calculated from and to the carrier's base under the provisions of paragraph (1) (a) but the flight of the aircraft commences and terminates at places other than the carrier's base, the hours flown between the carrier's base and the places of commencement and termination of the work provided for in the charter shall be determined as follows:
 - The mileage between the carrier's base and place of commencement or termination of the work provided for in the charter measured in accordance with section 39 (Methods of Measuring Distance) is divided by the block speed determined by dividing the rate per hour for non-term charters by the rate per mile for non-term charters published in Table II.

41 – CHARGES FOR LANDINGS ON NON-TERM CHARTERS

- The landing charge set out in Table II shall be charged when landings in addition to the free landings allowed in that Table are made pursuant to a request by the charterer.
- Landing charge shall not apply:
 - To landings made on flights to which the minimum charge per flight applies;
 - To the landing made upon positioning of the aircraft after completion of the work provided for in the charter.

42 – CHARGES FOR TAXING AIRCRAFT

Where, at the request of the charterer, the aircraft is taxied for purposes other than take-off or landing, the taxiing charges published in Table II shall be charged.

43 – CREDITS FOR FUEL AND OIL SUPPLIED BY CHARTERER

Where fuel and oil are supplied to the carrier by the charterer, the charterer shall be credited with the value of such supplies based on the value of the supplied in zone rates set out in Section 31 (Additional Charges for Fuel and Oil) (3).
